

smacc::SmaccEventInfo
::getSourceName

```
graph LR; A["smacc::SmaccEventInfo::getSourceName"] --> B["smacc::demangleSymbol"]
```

A diagram showing a call to the method `smacc::SmaccEventInfo::getSourceName` returning a `smacc::demangleSymbol`. The call is represented by a grey box on the left, and the return value is represented by a white box on the right, connected by a blue arrow pointing from left to right.

smacc::demangleSymbol
