

```
boost::statechart::  
event< EvWaypoint212  
< TSource, TObjectTag > >
```

The diagram shows two class boxes. The top box, representing `boost::statechart::event< EvWaypoint212 < TSource, TObjectTag > >`, has two empty compartments below the header. The bottom box, representing `smacc::EvWaypoint212 < TSource, TObjectTag >`, has a header, a compartment containing `+ waypointIndex`, and an empty compartment at the bottom. A blue arrow with an open triangle head points from the bottom box to the top box, indicating inheritance.

```
smacc::EvWaypoint212  
< TSource, TObjectTag >
```

```
+ waypointIndex
```
