

```
boost::statechart::  
event< EvWaypoint193  
< TSource, TObjectTag > >
```

The diagram shows two class boxes. The top box, representing `boost::statechart::event< EvWaypoint193 < TSource, TObjectTag > >`, has two empty compartments below the name. The bottom box, representing `smacc::EvWaypoint193 < TSource, TObjectTag >`, has a third compartment containing `+ waypointIndex`. A blue arrow with an open triangle head points from the bottom box to the top box, indicating inheritance.

```
smacc::EvWaypoint193  
< TSource, TObjectTag >
```

```
+ waypointIndex
```
