

```
boost::statechart::  
event< EvKeyPressU<  
    TSource > >
```

The diagram shows two class boxes. The top box is white and contains the text 'boost::statechart::event< EvKeyPressU< TSource > >'. The bottom box is gray and contains the text 'smacc::EvKeyPressU < TSource >'. A blue arrow with an open triangular head points from the bottom box to the top box, indicating that smacc::EvKeyPressU inherits from boost::statechart::event.

```
smacc::EvKeyPressU  
< TSource >
```
