The diagram shows two class boxes. The top box, representing `boost::statechart::event< EvWaypoint172 < TSource, TObjectTag > >`, has three horizontal compartments. The bottom box, representing `smacc::EvWaypoint172 < TSource, TObjectTag >`, has three horizontal compartments: the top one contains the class name, the middle one contains the member `+ waypointIndex`, and the bottom one is empty. A blue arrow with an open triangular head points from the top of the bottom box to the bottom of the top box, indicating inheritance.
