

sm_dance_bot::move
_base_z_client::CbNavigate
Backwards::onExit

```
graph LR; A["sm_dance_bot::move  
_base_z_client::CbNavigate  
Backwards::onExit"] --> B["odom_tracker::OdomTracker  
::setWorkingMode"]
```

A diagram showing a call from a state machine to a tracker. On the left, a gray box contains the text 'sm_dance_bot::move', '_base_z_client::CbNavigate', and 'Backwards::onExit'. A blue arrow points from this box to a white box on the right. The white box contains the text 'odom_tracker::OdomTracker' and '::setWorkingMode'.

odom_tracker::OdomTracker
::setWorkingMode
